SUMMARY

Full-stack developer with over **10 years of experience** specializing in **Java (Spring Boot)** and **Angular**. As an Assistant Vice President at **Deutsche Bank**, I lead high-impact engineering projects, including multi-team **OpenShift migrations** and scalable dashboard deployments. I am recognized for delivering secure, maintainable applications on schedule and driving **cloud-first solutions** and enterprise-grade microservices.

SKILLS

| | |
|------------------------------|---|
| Backend | Java, Spring Boot, REST, Microservices, Hibernate |
| Frontend | Angular, TypeScript, RxJS, NGRX, HTML, CSS |
| DevOps | Jenkins, OpenShift, Helm, Docker, Kubernetes, CI/CD |
| Testing & Quality | JUnit, Mockito, Jest, WebDriverIO, Sealights, SonarQube |
| Version Control | Git, GitHub, Bitbucket |
| Monitoring | Splunk |

WORK EXPERIENCE

Assistant Vice President, Deutsche Bank, Pune Mar 2020 – Present

- Promoted to **Assistant Vice President** based on a proven track record of **technical excellence**.
- **Spearheaded** the OpenShift (OCP 3 to 4) migration for **5 teams**, upskilling developers to perform migrations independently and **improving overall application reliability**.
- **Architected** and implemented a configuration-based, reusable, and scalable dashboard framework, which **reduced the development effort for new dashboards by 70%**.
- **Enhanced Monitoring and Observability** capabilities by adding action-specific performance tracking.
- Introduced production error count reports on **Splunk**, **reducing production (including silent ones) errors by 40%**.
- Implemented a robust **disaster recovery strategy**, **increasing system resilience**.
- Collaborated with **cross-functional teams** to deliver features and maintain business **SLAs**.

Consultant, Deloitte Consulting USI, Mumbai Dec 2016 – Mar 2020

- Progressed from **Analyst to Consultant** and managed key deliverables on **modernization projects**.
- Upgraded **client's insurance payment gateway** to **PCI-DSS compliance**, significantly **enhancing the user experience**.
- Represented Deloitte in the **Code Gladiators**, a national coding event recognized by **the Guinness World Records**.
- Designed and developed **multi-tenant REST APIs** for secure client portal interactions.

Associate Software Engineer, Pragmatix Services, Mumbai Jan 2015 – Dec 2016

- **Developed internal tooling** for Smart Search, Download Automation, and Reporting Dashboards, improving data visibility and efficiency.
- Co-designed and implemented **Rule Engines** for **NPA/EWS detection**.

EDUCATION

2012 – 2015 MCA, Veermata Jijabai Technical Institute (VJTI), Mumbai, India
